

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PRESENTATION OF PETITIONS.

No. 227. By Mr. Hunt: Petition of Frank D. Tayler and 75 other citizens of the City of Detroit, asking for the passage of House bill No. 152, providing for a juvenile court in Detroit.

Mr. Hunt moved that the petition be spread at length upon the Journal.

The motion prevailed.

The following is the petition:

To the Honorable, the Legislature of the State of Michigan:

We, the undersigned citizens and taxpayers of the City of Detroit, respectfully represent that the present system of dealing with "neglected," "dependent" and "delinquent" children in our city does not sufficiently protect them from evil influences and criminal associations. They are frequently branded with accusations and convictions of crime when their alleged offences are due more to thoughtlessness and an excess of animal spirits than to any criminal instinct. Much of this is avoided and a fair opportunity for honesty and usefulness is given to these children by the juvenile court system. That system has been in successful operation for some time in several cities of this country. It is substantially embodied in House bill No. 152, providing for a juvenile court in Detroit.

What has succeeded in other places under like conditions, we believe will succeed in Detroit. These children are worth saving. We earnestly

pray that you will aid those interested in their behalf by making this bill a law without delay.

FRANK D. TAYLER, and 75 Others.

The petition was referred to the Committee on City Corporations.

No. 228. By Mr. C. E. Ward: Memorial of Jennie Wood and 239 other citizens of Owosso, relating to equal suffrage.

The memorial was referred to the Committee on Elections.

We, the undersigned residents of Lake City, Missaukee County, hereby respectfully ask your favorable consideration for the bill now in the Senate and House of Representatives, providing for the erection of a soldiers' and sailors' monument on the Capitol grounds in the city of Lansing.

We, as taxpayers and citizens, think it is the duty of your honorable body to erect this monument in memory of the soldiers and sailors of Michigan who took part in the Civil and Spanish-American wars, believing that all loyal Michigan men and women will favor such action; and we hereby commend the action of the Legislature of 1901 in providing for the commission and most heartily approve of the report of the commission, and ask the Representatives of this locality and of the State at large to do this act of justice in memory of the soldiers and sailors of Michigan.

During the calling of the roll, Mr. Hemans arose to the point of order that the bill was not properly before the House for further consideration, inasmuch as the committee of the whole had made certain recommendations relative to the proposed substitute, but had made none concerning the bill itself and the bill was therefore still before the committee of the whole.

The Speaker declared the point of order not well taken for the reason that when the committee of the whole arose, it made a report upon the bill as well as upon the proposed substitute, and that the bill had thereby passed out of its possession.

Mr. Colby then arose to the point of order that the bill, having been reported by the committee of the whole, and all further control over the bill by the committee having been thereby released, the bill should properly be placed upon the order of Third Reading of Bills.

The Speaker declared that the point of order was not well taken for the reason that the House had not concurred in the recommendation of the committee of the whole relative to the bill, and that the bill was still before the House for such disposition as it might make.

Mr. Colby then moved that the bill be referred to the committee of the whole and made a special order for Wednesday, April 8, at two thirty o'clock p. m.

The motion prevailed, two-thirds of all the members present voting therefor.

By unanimous consent,

Mr. W. C. Robinson moved that when the House adjourn to-day, it stand adjourned until to-morrow at 9 o'clock a. m.

Mr. Osborn moved to reconsider the vote whereby the House yesterday refused to pass

House substitute for Senate bill No. 51, entitled

A bill to provide that all appointments to office made by the Governor shall be made by and with the advice and consent of the Senate.

Mr. Randall arose to the point of order that a motion to reconsider the vote whereby the House refused to pass the bill had once been made and lost and that therefore a second motion to reconsider was not in order.

The Speaker declared the point of order not well taken for the reason that under rule 34 of the House Rules, a motion to reconsider was in order two several days upon a question to be reconsidered.

The question being upon the motion made by Mr. Osborn,

Mr. Baumgaertner demanded the yeas and nays.

Senator Lockerby offered the following resolutions:

Died, August 10, 1902, at Manchester-by-the-Sea, Massachusetts, Hon. James McMillan, senior Senator in the Congress of the United States for the State of Michigan.

This announcement, which came with an unexpected suddenness to the people of our State, caused them to stand abashed in the presence of the

Mighty Hand which had deemed it wise to remove from them a man who had endeared himself to them by his nobility of character, and his ability and potent influence in the councils of the nation, and with uncovered head they bowed beneath the stroke which had deprived the State of one of its chieftains, and the nation of a wise and careful counselor.

The people of the State of Michigan recognized in James McMillan a man of keen and far-seeing judgment, a political leader, conservative and at the same time progressive, whose counsel was always on the side of right, justice and morality, a statesman who was made conspicuous by his invaluable service to both the State and the nation, and in whose judgment they had learned to place the greatest confidence.

In view of the above considerations, be it

Resolved, by the Senate and House of Representatives in Joint Convention assembled, That the people, through us, their representatives, hereby declare their sense of the great loss sustained in the demise of the Hon. James McMillan; that they recognize the loyalty of his service; that they remember him as their devoted champion and true friend, and that, among the great names in Michigan history, his name will ever remain as a synonym for greatness, nobleness and true-hearted devotion to his fellow citizens; and that we express our belief that in the years to come, on the pages of history where are grouped the names of the illustrious sons of Michigan who have proven themselves great among all, as servants of the nation and the people, no name will read more brightly there than that of James McMillan; and be it

Resolved further, That, as a mark of the approval by the people of the State of the life and character of James McMillan, and of their devotion to his memory, as well as an expression of their sympathy in her great bereavement, a copy of these resolutions, suitably engrossed, be prepared and transmitted to the widow of the deceased.

The following is the petition:

To the Honorable, the Senate and House of Representatives, Lansing, Michigan:

The undersigned respectfully memorialize your honorable bodies for the passage of House bill No. 164, introduced by Mr. Denby, and hereby respectfully submit:

Some of the reasons why the State of Michigan should provide a Sanatorium for the treatment of the tuberculous poor in the State.

Tuberculosis is at present the most fatal disease in civilized countries.

At least one-seventh of all men die of this disease. Of the seventy millions or more inhabitants in the United States today, at least ten millions will, unless something be done to prevent it, die from this disease. Most of the deaths from tuberculosis occur between fifteen and thirty-five years of age, or at a time when the individual should be of most worth to himself, to his family, to his community, and to the State. Thousands of families are not only decimated by this disease, but are impoverished financially by it. The life of the average adult is worth at least one thousand dollars to the State. Over two thousand people die in Michigan every year from this disease. This means a monetary loss to the State of two millions of dollars yearly, to say nothing of the impoverishment that results from the disease.

Tuberculosis is a preventable disease. It is caused by a bacillus or germ which is present in the expectoration of tuberculous persons. The disease is spread by the transference of this germ from one person to another. If every consumptive knew how and would disinfect his sputum, the spread of the disease would be greatly lessened. The number of cases would be correspondingly decreased, and the death rate from this disease would promptly fall. In a sanatorium those suffering from this disease would receive instruction in the methods of disinfecting the sputum and would be taught the necessity of attending to this matter. Such instruction cannot be thoroughly given by means of printed directions. The patient needs to live for a while under conditions such that compel his attending to the disinfection of his sputum. In this way and in this way only can proper instruction be given. After receiving such instruction, the consumptive may again mingle with his family without danger of the spread of the disease. A sanatorium would be a school of instruction which would diffuse knowledge to those in need of it and whereby hundreds of lives would be saved annually.

Tuberculosis in its early stages is a curable disease. Statistics in German and English sanatoria show that from twenty-five to forty per cent of initial cases of this disease can be arrested and practically cured. With a properly constructed and equipped sanatorium, change of climate is not

necessary. One of the most successful sanatoria for the treatment of tuberculosis in Germany has an altitude of only six hundred feet above the sea, and there are many places in Michigan in which this altitude is greatly exceeded. In fact, there is scarcely any place in the State where it is not equalled.

The average length of time necessary to arrest tuberculosis when taken in its early stages is less than six months.

The people of Germany are determined to eradicate this disease, and the watchword in that country today is "A Germany without tuberculosis," and this can be accomplished. In Germany and German speaking Switzerland there are today thirty private sanatoria for the treatment of this disease and fifty-eight public sanatoria and twenty-three more of the latter are now in process of erection. In these institutions somewhere between fifteen and twenty thousand people are being cared for, and these are replaced by others about once in six months.

The state of Massachusetts has had a sanatorium for tuberculosis in operation for several years, and the treatment has proved to be as beneficial in that institution as in the German sanatoria. New York has made large appropriations which are to be expended under a commission for the erection of sanatoria for the treatment of this disease. The last legislature of New Jersey appropriated fifty thousand dollars by means of which a commission has determined the number of cases in the state and has located and purchased a site for a state sanatorium. The bill before the present legislature provides for three hundred thousand dollars to erect a building. The Governor of the state of Illinois recommended the legislature to pass an appropriation for the establishment of such a sanatorium in that state.

Among the poor the care of a consumptive member of a family endangers the lives of the other members, necessitates in some cases that one other member of the family shall take care of the sick, increases the work necessary in the household; greatly augments the expense of living, and under these conditions it is impossible to prevent the spread of the disease. Such a sanatorium would be a place for the cure of the disease and for instruction in the means necessary to prevent its spread. It would not be a home for incurables.

While one-seventh of all men die of tuberculosis, one-third of all those who die during the working period of life die from this disease.

Shall Michigan not provide for the care of the consumptives among her citizens, and shall she not be in the front rank of those who are striving by the aid of science to lessen sickness, prolong life and in every way improve mankind?

House resolution No. 105.

Died, at his residence in the City of Lansing, April 19, 1903, G. Willis Bement.

Mr. Bement became a resident of Michigan some thirty years ago, and as an active member of the firm of E. Bement's Sons, manufacturers of agricultural implements, gained a wide acquaintance and an enviable reputation as a cultured gentleman and a business man of highest integrity. He also entered earnestly into public interests and gave ungrudgingly of his time for the promotion of the public welfare. In 1893 he was appointed a member of the board of control of the School for the Blind, and reappointed as a member of that board in 1899. To the duties imposed upon him by this appointment he gave earnest and unremitting care and attention; and it seems fitting that the State which he has served for ten years on one of its important trusts, should not fail to record his many

virtues, and its regret that he should, thus early in a life which promised to be one of unusual service to his fellow men, be removed to the life beyond; therefore be it

Resolved by the House of Representatives (the Senate concurring), That the Legislature of Michigan deplores the loss of G. Willis Bement, as a real loss to the State as a community, and as removing from the ranks of good citizens an active, earnest, faithful servant of the people, who in the discharge of the trust committed to him proved his title to the highest esteem of his fellows;

Resolved, That the memory of G. Willis Bement is worthy to be cherished and his character emulated; a man of keen business sagacity, earnest in his undertakings, unflagging in his zeal for the good of the commonwealth, a gentleman of engaging manners and address, his life seems all too brief;

Resolved further, That the Legislature of Michigan tender to the bereaved widow their sincere condolence in this her sore bereavement, and mourn with her for "the good man gone;"

Resolved, further, That in token of our respect for the memory of the deceased a copy of these resolutions, suitably engrossed, be transmitted by the Clerk of the House to the sorrowing widow.

The Speaker announced that the resolution would lie over one day under the rules.

Mr. Anderson moved that the rules be suspended.

The motion prevailed, two-thirds of all the members present voting therefor.

The question being on the adoption of the resolution,

The resolution was adopted unanimously by a rising vote.

Mr. Byrns moved that the resolution be spread at length upon the Journal.

The motion prevailed.

The following is the resolution:

At a regular meeting of Cigarmakers' Union No. 403, held in their hall at Ishpeming, Mich., January 27, 1903, the following resolutions were unanimously adopted:

Whereas, The manufacture of cigars has been for some time and still is carried on in the State House of Correction and Branch of the State Prison in the Upper Peninsula, located at Marquette, Michigan: and

Whereas, Said manufacture of cigars by prisoners in said State Prison is a direct violation of Section 3, Article 18, of the Constitution of the State of Michigan, which reads as follows: "No mechanical trade shall hereafter be taught to convicts in the State Prisons of this State, except the manufacture of those articles of which the chief supply for home consumption is imported from other states or countries;" and

Whereas, We know that there are over one hundred prisoners employed in the making of cigars in said prison at Marquette, and whose labor is sold to certain contractors, who are manufacturers of cigars; and

Whereas, These convicts are required to perform a certain task each day, which will average as much (and with machinery used) undoubtedly more, than the amount of work turned out by a free cigarmaker, and as there are about 300,000 cigars manufactured weekly, which amount without machinery, would give employment to at least two hundred cigarmakers; and

Whereas, The manufacture of and the making of cigars by prisoners in the said State Prison or Prisons, is an outrage to free honest labor; therefore be it

Resolved, That we, the members of Cigarmakers' Union No. 403 of Ishpeming, Mich., and as citizens of the State of Michigan, protest against the letting of convicts to contractors or manufacturers, and the teaching of these convicts cigarmaking in said State Prison or Prisons in the State of Michigan; be it further

Resolved, That we appeal to the following persons to do all in their power to stop the manufacture of cigars in said State Prison or Prisons in the State of Michigan, also that copies of these resolutions be sent to Gov. Aaron T. Bliss, ex officio member board of control, Lansing; F. O. Clark, Marquette; John Hines, Menominee; O. C. Davidson, Iron Mountain, members board of control, and to James Russell, warden at Marquette Prison; also to our Representatives to our State Legislature.

ROBERT NORTHEY,
JOHN GOODMAN,
JERRY HARRINGTON,

The resolution was referred to the Committee on State Prison.

Senate Chamber,
April 16, 1903.

To the Speaker of the House of Representatives:

Sir—I am instructed by the Senate to return to the House the following concurrent resolution:

House resolution No. 104.

Whereas, The State Prison Board is about to be confronted with the problem of finding employment for 200 men whose contracts will soon expire; and

Whereas, There is such a growing sentiment against employing the inmates of our prisons in contract labor in competition to the free labor of the State; and

Whereas, The welfare of the prison and its inmates and the cause of humanity in general demands that the time of the inmates be occupied in some profitable employment;

Therefore be it resolved by the House of Representatives (the Senate concurring), That a committee of five from the House be appointed by the Speaker and a like committee of three from the Senate be appointed by the President of the Senate to investigate and report to the Legislature the advisability of establishing a cordage and binding twine plant at the State Prison at Jackson. MOTIONS AND RESOLUTIONS.

Mr. Werline offered the following resolution:

House resolution No. 111.

Whereas, The burden of improving and maintaining our highways according to the general prevailing system in this country rests almost entirely upon the agricultural lands and people living in the rural disstate; and

Whereas, The State aid plan for constructing highways, as practised in the States of New Jersey, New York, Connecticut and Massachusetts has proven satisfactory in its operation, and has offered a partial solution of the road question in that it distributes this burden of cost so that one-half is paid out of the general fund supplied by the State; and

Whereas, It is desirable to extend this principle of cooperation and distribution of the burden of cost to a still greater extent so that the government of the United States shall bear its share of the cost of construction to be paid out of the general revenues of the United States; and

Whereas, One-half of said revenues, aggregating during the last two years \$1,000,000,000 per annum, is derived from the agricultural states and rural districts, while only ten per cent of the total amount is appropriated by Congress for the use of said agricultural districts, while ninety per cent is appropriated for public buildings and other uses pertaining to great cities; and

Whereas, The Hon. Walter P. Brownlow, member of Congress from Tennessee, has introduced a bill in the United States House of Representatives, providing for a National, state and local cooperation in the permanent improvement of the public highways, according to the provisions of which the sum of \$20,000,000 is to be appropriated, and the United States government is to pay one-half of the cost of improving any public highway when requested so to do by, and in cooperation with State or civil subdivision thereof; therefore be it

Resolved, By the House of Representatives of the State of Michigan (the Senate concurring), that we hereby heartily endorse said Brownlow bill and commend its passage by Congress, and that we request the Representatives from the State of Michigan in Congress and instruct the United States Senators from this State to vote for and support said bill.

The Speaker announced that the resolution would lie over one day under the rules.

House resolution No. 111.

Whereas, The burden of improving and maintaining our highways according to the general prevailing system in this country rests almost entirely upon the agricultural lands and people living in the rural districts; and

Whereas, The State aid plan for constructing highways, as practised in the States of New Jersey, New York, Connecticut and Massachusetts has proven satisfactory in its operation, and has offered a partial solution of the road question in that it distributes this burden of cost so that one-half is paid out of the general fund supplied by the state; and

Whereas, It is desirable to extend this principle of cooperation and distribution of the burden of cost to a still greater extent so that the government of the United States shall bear its share of the cost of construction to be paid out of the general revenues of the United States; and

Whereas, One-half of said revenues, aggregating during the last two years \$1,000,000,000 per annum, is derived from the agricultural states and rural districts, while only ten per cent of the total amount is appropriated by Congress for the use of said agricultural districts, while ninety per cent is appropriated for public buildings and other uses pertaining to great cities; and

Whereas, The Hon. Walter P. Brownlow, member of Congress from Tennessee, has introduced a bill in the United States House of Representatives, providing for a National, state and local cooperation in the permanent improvement of the public highways, according to the provisions of which the sum of \$20,000,000 is to be appropriated, and the United States government is to pay one-half of the cost of improving any public highway when requested so to do by, and in cooperation with State or civil subdivision thereof; therefore be it

Resolved, By the House of Representatives of the State of Michigan (the Senate concurring), that we hereby heartily endorse said Brownlow bill and commend its passage by Congress, and that we request the Representatives from the State of Michigan in Congress and instruct the United States Senators from this State to vote for and support said bill.

The title of the bill was agreed to.

House joint resolution No. 560 (file No. 207), entitled

A joint resolution proposing an amendment to Section 9 of Article 14 of the Constitution of this State relative to highways;

Was read a third time, and pending the taking of the vote on the passage thereof,

Mr. Colby moved to amend the joint resolution by inserting in line 5 thereof, before the word "the" the words "The Legislature may authorize any city upon the same being voted for by a majority of the electors thereof, voting at any election, to become a party to or interested in and to carry on any work of internal improvement within its corporate limits."

The amendment was not adopted, two-thirds of all the members present not voting therefor.

Mr. Denby moved to amend the joint resolution

By striking out in line 7 thereof the words "except in the improvement of public highways."

The Speaker ruled the amendment out of order for the reason that inasmuch as the amendment sought to strike out the only change proposed by the joint resolution to the Constitution, and would therefore, if adopted, defeat the intent of the resolution, it was an attempt to do indirectly that which could be directly accomplished by refusing to pass the joint resolution.

The question being on the passage of the joint resolution.

The joint resolution was then not passed, two-thirds of all the members-elect not voting therefor, by yeas and nays, as follows:
